No. PUB/MAS/2024/09/16

Date: 23.09.2024

प्रेसविज्ञप्ति /PRESS RELEASE

**DELAYED OPERATION OF SUBURBAN TRAIN SERVICES PLYING
THROUGH AVADI AND AMBATTUR RAILWAY STATIONS TODAY MORNING
(FROM 08:00 TO 09:00 HRS)**

A caution order has been issued for EMU train operation on the UP/DOWN slow lines between Avadi and Ambattur Railway stations with effect from September 19th, permitting a speed of up to 20 KMPH, due to ongoing Metro waterline insertion works by Tamil Nadu State Govt.

Today, a trackman, exclusively deputed to monitor and ensure safe operation of EMU train movements under the said caution order stopped the EMU Train No.43212 Tiruvallur – Chennai Central suburban terminal at Avadi railway station around 08:00 hrs due to water stagnation on tracks caused by Metro water line insertion works.

Restoration works were undertaken from 08:00hrs to 08:43hrs. Normal train traffic resumed at 09:00 hrs with a restricted speed between Avadi and Ambattur Railway stations.

We regret the inconvenience caused to passengers due to this unexpected delay.
