- Public award
- Cash award with appreciation certificate were distributed to wife of Firoz by Shri.Sakkeer Hussain.C.T., ADRM/II/PGT at CLT on 14.07.2022. Shri.Firos.K.K. S/o Abdul Khader, Pandarakandi 74/1197, Puthiyangadi, Kozhikode-673021 is honored with “special award” of Rs.1500/- (Rupees one thousand five hundred only), who noticed heavy spark on OHE line due to touching of slanting coconut tree between West hill and Elathur Stations on 27.09.2021. He immediately showed red clothes from the side of the track on down line to alert the crew of T.No. 06650 approaching towards Elathur Station.

- Award distributed to 25 welders for their meritorious performance in welding work over Palakkad Division for the year 2021-22.
- During the year 2022-23, Safety award distributed to 1 public and 21 employees for their safety consciousness and timely action helped to avert a possible mishap .

SAFETY SEMINAR

- During the year 2022-23(up to Aug.2022) , 34 seminars on various subjects were conducted at different places of Palakkad Division.

Regular monitoring of LPs for RC and PME.
LIs are constantly monitoring the performance of loco pilots, ABCD categorization of Loco Pilots & ALPs was reviewed to classify in a realistic manner.
As part of involving all officers in night inspections, a monthly calendar is made out indicating the date & designation of the officer. This will enable in ensuring one officer is on night inspection daily somewhere in the division. The night inspection includes stations, gates, running room, RRI cabin etc. Anything adverse detected during the course of the inspection is immediately conveyed to the divisional control office so that the remarks get reflected in the daily morning position given to all the branch officers apart from DRM & ADRM for immediate compliance. This is being relayed to PCSO/MAS on the following day itself.
Division has set up 20 pole mounted solar systems with LED lights on experimental basis in critical cutting at locations between KJKD and WRA stations to prevent wild elephants from straying into the track and being hit by running trains.
Regular joint 'signal sighting' inspection conducted by Officers and Supervisors.
Regular foot plate inspection by Officers and Supervisors to ensure safe train running system.
Timely rectification of Signal and Track defects reported by Loco Pilots is monitored through SIMS (Safety information Management System)
A survey of goods warning boards , speed indication boards , signage boards , engine stop boards have been taken for rectification wherever required and arrangements made to rectify.
Family counseling of selective running staff at their residences.
Frequent ambush checks are being conducted to check the alertness of Loco Pilots , Guards, SMs, Gate Keepers and staff protecting the work sites.
Survey of LC gates and stations done for adequacy of safety measures.
Strengthening of track especially in yards is being done.
Awareness programme for school children, general public and Railway staff is being conducted.
Conducting safety seminars, safety drives, safety meeting and safety workshops at different stations and Divisional HQrs.
Relaying video clips of safety awareness at different stations
