प्रेसविज्ञप्ति / **PRESS RELEASE**

**CHENNAI DIVISION ACHIEVES RECORD REVENUE OF ₹37.2 CRORES
THROUGH SCRAP DISPOSAL IN FY 2025-26**

Chennai Division of Southern Railway has achieved a significant milestone in **non-fare revenue** generation by registering its highest-ever earnings through scrap disposal during the Financial Year 2025-26.

The Division disposed of **11,906 Metric Tonnes** of scrap, comprising released rails, unserviceable machinery, tools, ferrous and non-ferrous materials, and other obsolete railway assets, generating a record revenue of **₹37.2 Crores**. This surpasses the previous year's performance of 8,466 Metric Tonnes of scrap disposal and revenue of ₹30.3 Crores during FY 2024-25.

The achievement marks an impressive growth of over **40% in scrap** disposal quantity and an increase of nearly **₹7 Crores in revenue** compared to the previous financial year, thereby setting a **new benchmark** in scrap management and resource optimization for the Division.

The record performance was made possible through continuous monitoring, systematic identification and segregation of scrap materials, **timely disposal** through transparent e-auction processes, and coordinated efforts by various departments of the Division. The intensified scrap disposal drive has also resulted in the clearance of **valuable railway space**, improved housekeeping standards and enhanced safety conditions across railway premises.

Chennai Division has been consistently focusing on scientific scrap management practices and effective asset utilization to strengthen operational efficiency and augment non-fare revenue. The Division's proactive initiatives in this regard have contributed substantially towards sustainable railway operations and **better infrastructure management**.

The additional revenue generated through scrap disposal will support the ongoing augmentation and **modernization of railway infrastructure** and further enhancement of passenger amenities and **service quality** across Chennai Division.
