Duties of Gateman :

- 1) Alertness: The Gateman should be alert and be prepared to take immediate action should danger be apprehended. The keys of the Gates shall be on his possession.
- 2) During passage of Train : The Gateman should stand facing the Track on the Gate lodge side of the approaching Train. He should observe all passing Train till the last compartment and be prepared to take such action as may be necessary to ensure safety of Trains.
- 3) Action in emergency : In case of an obstruction at the Level Crossing, the Gateman should maintain the gate signals, if any in the "ON" position and if unable to remove it, protect the line as under :
 - a) On double line, if both lines are obstructed during day, he shall plant a red banner flag at a distance of 5 meters on the line of which a Train is expected to arrive first, then plant another red banner flag on the other line at site of obstruction. He shall then pick up the red hand signal and showing it, proceed on that line towards the direction of an approaching Train to appoint 600 meters from the Level Crossing and place one detonator on the line, after which proceed further to not less than 1200 meters from the Level Crossing and place 3 detonators on the line about 10 meters apart. Having thus protected the line on which a Train is expected to approach first, he should return to the Level Crossing picking up the intermediate detonators on his way. He shall then proceed on the other line showing the red hand signal, place detonators similarly and return to the site of obstruction to warn the Driver of an approaching Train.
 - b) On single line, if the line is obstructed during day, he shall plant a red banner flag towards the direction from which a Train is expected to arrive first, then plant another banner flag towards the opposite direction at the site of obstruction. He shall then pick up the red hand signal and as in sub-para(a) above, protect the line in the direction from which a Train is expected to approach first return to the site of obstruction and proceed with all haste in the other direction to protect the line. Having protected the line on both sides he should station himself at the place of obstruction to warn the Driver of an approaching Train.
 - c) At night the Gateman should light the two hand signal lamps and take action to exhibit red light and protect the lines as in sub para(a) and (b) above.
 - d) Gateman should take immediate action to inform the Mate, SSE/P.Way or JE/P.Way and the nearest Station Master about the obstruction at the Level Crossing through messenger or other means available.
- 4) Parting of a Train : If a Gateman notices that a Train has parted, he shall not show a stop hand signal to the Driver, but shall endeavour to attract the attention of the Driver and the Guard by shouting gesticulating or other means.
- 5) The Gateman should ensure that the Gate lamps and lamps of all Gate signals are lighted and kept burning continuously from sunset to sunrise.
- 6) No Gateman shall leave his Gate unless other Gateman has taken charge of it. If it is necessary to leave his Gate in emergency, before doing so, he should close and lock the Gates against the public road.
- 7) The Gateman should see that the channel for the flange of the wheel is kept clear.

The above instructions regarding the duties of Gateman are indicative and not exhaustive. The nature of work, procedures, complete guidelines and duties of Gateman are elaborated in Indian Railway Permanent Way Manual which has to be followed without deviation at all times during the work.
